01 · INVITATION

What we are asking.

Silk Clarity invites independent academic reviewers to test the methodology against the standards of construct definition, evidence-to-score logic, and generalisability. The intent is to harden the methodology, not to certify it.

02 · SCOPE

What is in.

- The six-dimension framework and its competency-level decomposition.
- The five evidence streams and their reconciliation logic.
- Scoring rubrics and assessment commentary protocol.
- The Communication Signature output format.

03 · MATERIALS

What you will receive.

- Methodology documentation (current version).
- Sample anonymised assessment output (multiple role contexts).
- Scoring rubrics and evidence-to-score worked examples.
- Change Record and Validation Roadmap.

04 · COMMITMENT

Time and form.

A structured review template is provided. Expected reviewer commitment is six to ten hours over four weeks. Reviewers are credited in the Change Record; substantive contributions are credited in any subsequent publication.
